

MARCH IS NATIONAL
COLORECTAL CANCER AWARENESS MONTH

Colorectal cancer is the **second leading cancer killer in North America, second only to lung cancer.**

Colorectal cancer screening saves lives in two ways:

- 1** *By finding the cancer early, when it is most treatable*
- 2** *By finding and removing precancerous polyps—or growths—before they become cancer*

Talk with your doctor about your screening options **today.**
